DynaKon

Everything you hear, tuned. Free auto EQ.

ABOUT

DynaKon™ is a free Chrome extension that automatically evens out the volume and fixes the tone of everything you play in the browser. Match volume brings every tab to the same loudness (default -8 LUFS, adjustable). The automatic EQ eases muddy or harsh sound without flattening the music. An Audio Details tab shows BPM, key, loudness, peak and stereo width, and Hold to bypass plays the original for comparison. Audio is processed on the device; there is no account, no ads and no analytics.

FAST FACTS

Product	DynaKon, Chrome extension, free

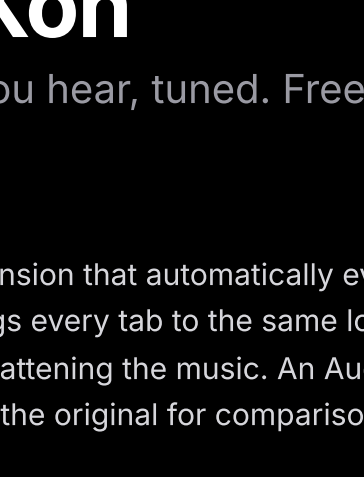
SCREENSHOTS

DynaKon

Everything you play, tuned automatically.

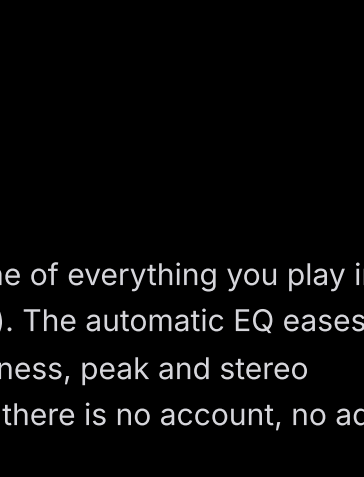
Volume and EQ, balanced for you. No setup, no sliders.



DynaKon

Fixes the sound, not the music.

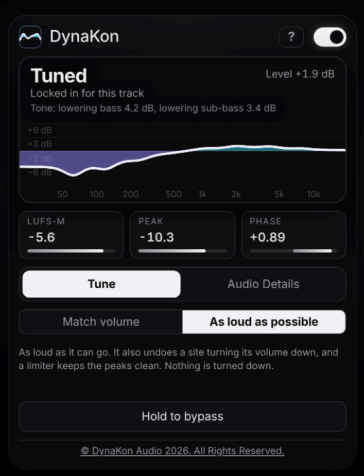
Eases harsh highs, muddy mids and boomy bass. Keeps the character, punch and dynamics.



DynaKon

One volume, or as loud as possible.

Match every tab to the same loudness, or lift each track as far as its peaks allow.



DynaKon

Know what you're hearing.

BPM, key, loudness, peak, stereo width and more for whatever is playing.
